

SARA™

Speaking Autonomous Responsive Agent

BEYOND MONITORING

Always active. Instantly responsive. Built to scale.

**SARA is the Agentic AI redefining
modern security operations.**

***Bonus Feature: Includes tracking across
disparate camera systems***

SARA™

Your New Call Center Super Operator

Scales to monitor every video feed and alarm input, enabling enterprise-wide coverage without human monitoring overhead. From full-service multi-call escalation with real-time talk-down, to operator assist and basic alarm response, SARA defines the Agentic AI product line for security and facilities teams.

Autonomous by design, intelligently triggered per input, with automated outputs like voice engagement, stakeholder notifications, and instant reporting. SARA is everything a modern response system should be.

SARA AGENT

Agentic AI operator, replacing live operators with multi-threaded, real-time response, calling, and escalation.

SARA ASSIST

Human-assisted response with AI-enhanced calling, reporting, and event wrap-up. Ideal for GSOCs and monitoring centers.

SARA EDGE

Add-on for Agent SARA. Performs real-time talk-down from edge devices to engage and deter suspects on-site.

SARA LITE

Single-call response and reporting per verified event, including SMS / email notification.

SARA VERIFIED

A fast, cost-efficient alert scrubber that filters out false positives using AI, so your team only responds to what matters.

SARA ALARM

Responds to alarm signals with fast voice calls, notifications, and built-in reporting to keep teams informed.

Activate SARA

COMPATIBLE WITH ANY ONVIF PROFILE-S COMPLIANT CAMERA. WORKS ACROSS ALL MAJOR VMS PLATFORMS, INCLUDING GENETEC™ AND MILESTONE™. IMMIX™ INTEGRATION COMING SOON.*
